ARE YOUR BACKUPS WORKING?

CONSIDER THE RISKS

- Fire / water damage
- Computer failure
- Accidental deletion
- Virus / encryption

THE BENEFITS

Cloud Backup

Get your data off-site in case of a disaster such as server fire damage or server failure.

Local Backup

Restore files faster and protect yourself from accidental file deletion.

256-bit AES Encryption

Protect your data! Secure backups so only you have access to them.

Email Notifications

Stay informed! Receive status e-mails to ensure your data is being stored correctly.

Scheduling & Real-Time Backup

Keep your schedule flexible! Setup hourly, daily, weekly, monthly backups or specify your own schedule.
