

MANAGED ANTIVIRUS

Let Expenet monitor your
antivirus and alert you
when something is wrong.

207-645-4449

OUR ANTIVIRUS SOLUTION DOES ALL THE WORK!

PROTECTION AGAINST ALL ASPECTS OF YOUR BUSINESS

Computers

Ensure your computers are protected with our robust Managed Antivirus solution.

- **Antivirus** - Protection against software that compromises the security of your computer(s)
- **Spyware** - Protection against information gathering software
- **SONAR** - Real-time detection of potentially malicious applications when they run

Web

Are you safe from online attacks? Ensure your online experience is monitored for potential threats.

- **Download Scans** - Scan your downloads for hidden viruses and attacks before they infect your computer
- **Browser Protection** - Protect against malware and spyware installed on your browsers
- **Safe Surfing** - Protect against potentially dangerous sites

Networks

Network threats are inevitable in today's age. Stay protected!

- **Intrusion Prevention** - Continuous monitoring of your network for malicious activity
- **Email Protection** - Prevents malware and non-malware threats
- **Smart Firewall** - monitor the communications between your computer and other computers
